**TODOS NUESTROS TERMOSTÁTICOS DE EMPOTRAR INCLUYEN:**

- Cuerpo fabricado por estampación en caliente de latón lo cual garantiza una perfecta estanqueidad del mismo por la ausencia de porosidades o fisuras.
- Caja de empotrar con nivel de burbuja incluido, que facilitan considerablemente la instalación del producto.
- Sistema de fácil acceso para el mantenimiento del cartucho y el inversor.

**TOUTS NOS THERMOSTATIQUES ENCASTRABLES COMPRENNENT :**

- Corps réalisé par forgeage à chaud du laiton qui garantit une parfaite étanchéité grâce à l'absence de porosité ou de fissures.
- Coffret d'encastrement avec niveau à bulle inclus, ce qui facilite grandement l'installation du produit.
- Système d'accès facile pour la maintenance des cartouches et des onduleurs.

**ALL OUR CONCEALED THERMOSTATICS MIXERS INCLUDE:**

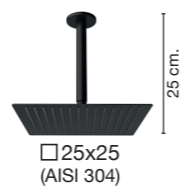

- Body mixer manufactured by hot brass stamping which assures a perfect seal of the pieces due to absence of porosities or cracks.
- Concealed box with bubble level to facilitate its installation as much as possible.
- Easy-access system for cartridge and diverter maintenance.

**TUTTI I NOSTRI TERMOSTATICO DA INCASSO INCLUDONO:**

- Corpo realizzato mediante stampaggio a caldo di ottone che garantisce una perfetta tenuta dello stesso grazie all'assenza di porosità o fessurazioni.
- Scatola da incasso con livella a bolla inclusa, che facilita notevolmente l'installazione del prodotto.
- Sistema di facile accesso per la manutenzione della cartuccia e dell'inverter.
